NIKITHA P K

Software Engineer | Python Django Full Stack Developer

nikithapk3@gmail.com Kozhikode, Kerala linkedin.com/in/nikitha-pk-61552b255

github.com/Nikitha1316

SUMMARY

Information Technology graduate with hands-on experience in Python, Django, Django REST Framework, and REST API development. Currently pursuing Python Django full-stack development training at Luminar Technolab. Experienced in developing academic and internship projects involving backend development, computer vision, and mobile applications. Seeking an entry-level software developer role to apply programming skills and contribute to building practical, scalable applications.

PROFESSIONAL EXPERIENCE

Luminar Technolab, *Python Django Full Stack Developer Trainee* 2026 – Present | Kozhikode, Kerala
Developing web applications and REST APIs using Python, Django, Django REST Framework, HTML, CSS, Bootstrap and JavaScript.

BLEEP Education, *Cybersecurity Intern* 2025 – 2026
Completed practical training and hands-on exercises in cybersecurity fundamentals, security tools and security analysis.

LP201 - Practicum for Innovative Engineering, *Intern* 2024 – 2025 | Idukki, Kerala
Implemented a retracing wheelchair

Skill Vertex, *Python Intern* 2023 | Remote
Applied Python programming to practical problems and developed a Digital Library project during the internship.

EDUCATION

GEC Idukki, *Bachelor of Technology in Information Technology* 2022 – 2026 | Kerala, India
Affiliated to APJ Abdul Kalam Technological University (KTU)

TECHNICAL SKILLS

Languages
C, Python, SQL, JavaScript

Hardware
Microcontrollers (Basics of Arduino, ESP32).

Backend
Django, Django REST Framework, REST APIs

Tools
Git, GitHub, Postman

Security Tools
Kali Linux, Wireshark, Burp Suite

Frontend
HTML, CSS,Bootstrap, JavaScript, React Native

Database
MySQL, SQLite, Firebase

Computer Vision / AI
OpenCV, YOLOv8, R3D-18

SOFT SKILLS

- Problem Solving | Teamwork | Adaptability | Leadership.

PROJECTS

Safe Vision: Violence Detection and Alert System 2025 – 2026
Python | Flask | OpenCV | YOLOv8 | R3D-18 | Firebase | React Native

Developed a mobile application to assist law enforcement in maintaining public safety by providing real-time violence detection and criminal detection capabilities.

Interview Integrity Guard
Python | React Native | AI/Computer Vision

Developed a mobile application for virtual interview integrity monitoring using AI-based generated-content detection and real-time behavioral analysis.

Retracing Wheelchair
ESP32 | Ultrasonic Sensors | IR Sensors | Motor Driver | DC Motors

Developed an ESP32-based smart wheelchair that automatically returns to its designated parking station using ultrasonic and IR sensors for obstacle detection and motor-driver-controlled movement.

ADDITIONAL INFORMATION

Languages
English | Malayalam (native) | Hindi.

Certifications & Achievements
- Tata — Cybersecurity Analyst Job Simulation
- Runner-up — LP201 - Practicum for Innovative Engineering
